**Email :** alex@alexbarclay.net

#### Order Information

**Date Required :** 13 Aug 2009 10:00:00  
**Number of Copies :** 1  
**Comments / Instructions :** Pre-Press Information The PDF that PowerPoint will produce is at a reduced resolution and will need resizing by your printer to print as a full 4 feet by 3 feet poster. Have them resize the file in Adobe Illustrator to 7,200 pixels by 5,400 pixels in size before printing. This will ensure the best quality print for you to display. The instructions below are pre-press instructions for your printer. 1. Open PDF document in Adobe Illustrator 2. Select desired page 3. Select all text and objects 4. Group all text and objects 5. Resize grouped area to fit in 7,200 x 5,400 space

#### Delivery Information
